“ I suspect that I may have been related to Richard through my uncle Glenn Nennering, also of Cape Girardeau. He sounds like a lovely man who was a light in this world. My condolences to his family and friends. Helen Bradford Sprenke

“ We were so sorry to hear of Richard's passing. There are many memories of his time at Stev-Mark as well as with the whole Nennering family growing up together back in the day. Your family has our sympathy during these difficult times.

“ Lost a friend to cancer a few days ago. He was a good and kind man, an artist. He showed and taught me some of the things he'd learned through his experiences with ceramics-he loved clay. Actually, he was the one who encouraged me to get my own kiln a couple of years ago. We had some good times together. I wish I would've met him earlier in life, but still, I'm grateful for the time we had and the things we shared. In these last few days after his passing, I've made several bowls and other hand built pieces, and this might be just my imagination, but I have noticed that my hands are actually better and more relaxed when I handle and work the clay now. I'm not going to make a big deal out of it and describe every tiny new detail that I've noticed, or speculate as to how and why this is happening at this time, but I'll say this: I'd like to believe that my friend has something to do with it, sort of a parting gift, something to remember him by.

Goodbye friend. I'm glad to have met you. And thank you.
