“ I am 63 years old, I was diagnosed of Parkinsons disease at the age of 57. I had severe calf pain, muscle pain, slurred speech, frequent falls, loss of balance, difficulty getting up from sitting position. I was placed on Sinemet 3 times daily, it helped me but not very much. My neurologist advised me to try natural treatments and introduced me to Mayaka Clinic Parkinsons Disease Herbal formula, I read alot of positive reviews from other patients who used the treatment and i immediately started on the treatment. I had great improvement and relief with this treatment, total decline of symptoms. Great improvement with speech, co-ordination, balance, muscle, mood etc, I gained back my life with this treatment and can never be thankful enough. “ Words cannot express the sorrow we felt to learn of Ann's passing. My sister and I grew up knowing her and your family with our fathers both being professors in SEMO's geography department and we have such wonderful memories of family get togethers with you all. Later, as all of us kids went our separate ways, our parents and yours continued to remain friends and were there for each other during the difficult times, including Ann sitting at the hospital with Mom when Dad passed away suddenly ten years ago. Our mom was so very appreciative of Ann's generosity and we will always remember her fondly. Keeping you all in our prayers...
