“ I just heard of Denny's passing. I met Denny back in 2005 as he became interested in some sawmill equipment we manufacture. It wasn't until 2012 that he finally bought our equipment. During those years I would always stop by the mill when I was driving through the area because I always enjoyed talking with Denny. After he bought our equipment we always joked about how long it took him to make up his mind.

Throughout the years Denny and I would always talk by phone. I would call him from time to time to get his take on the future of the hardwood industry. I learned over the years that his predictions, even years in advance always rang true... I could always count on Denny to provide me with wisdom. In fact, it was a phone call made to his office just this morning that I learned of his passing. I was calling him to hear his take on the future of the hardwood industry.

I am saddened by his loss, and I will miss him. He always made me feel welcome. Bill Hendrix, Central City, KY
