“ Linda, I had the privilege of working for Dr at CVC as his coder and there is not enough space on this page to express my thoughts and feelings about this man. My heart goes out to you and his family for your loss. There isn't everyone that I have met that didn't love him. He always had a kind word and a hug for everyone that needed one and of course his silly smile. I prayed fore him everyday and will continue to pray for you. He was truly a gift from god and he will be missed by everyone whose lives he touched! Be well, Linda and good luck to you

“ Linda, I was a trainee under Dr. Maxwell while he was at ECU; I have such fond memories of him; he was not only a tremendous teacher but also such a wonderful and caring person. He treated the trainees with the utmost respect and his humor always brightened our day. I learned a great deal from him and I am very thankful. He was truly a gifted doctor and a unique and special person. Nadim Geloo

“ I am saddened to hear the news of the passing of my dear Dr. Maxwell. It's amazing the bond that a patient can feel towards their doctor. He repaired my heart after my heart attack and saved my life. Now today my heart is once again broken and I wish he were here to fix it. He will be missed and will remain forever in my heart.

“ Linda, You and Phil have always been very special to us! I find that words are very inadequate to express the grief and pain we share with you. Please know that our love is with you during this hard time. As you know, if not for Phil, I would not still be here. The kindness and love you showed Phil was evident in his caring and the re-establishment of family. I wish we could take your pain away. Phil healed the hearts of many and I wish we could heal yours! Love and blessings, Joe, Angie and Adam

“ To Dr. Maxwell's family, Phil was such an important part of my family. He trained me in medical school and residency at WVU He was the finest physician and teacher I have known. He also took care of my Dad for many years at WVU. I know that if it weren't for his gift as a physician, my father would not be with us today. Phil was truly a giant amongst us, as a physician, teacher, and remarkable person. I doubt there enough words that I could write to let you know how many people he has touched, and what he has meant to so many. I was so sad to hear this news. My thoughts are with you. May you someday find some peace in knowing that Phil's work continues through all those he touched. My deepest sympathy to all in his family. Dianne Muchant

“ Linda, I was shocked to hear of Phil's death--it seems just yesterday when we played racketball at the coliseum while he watched Cardiac Rehab patients. I will miss his funny stories and his terrific laugh!! What a loss of a great person, wonderful teacher and outstanding, caring cardiologist. My sympathies and prayers for you on your loss
