“ A 2nd Cousin I will miss and enjoyed being around. One of a kind for sure with a lot of sayings.

*He was Senior in HS when I was a Freshmen, I got to ride with him in his truck (thought was a big deal). Later years including before we moved from MO in 1960, did some running together.*

*Always, tried to get out to Millersville to visit Mac and Mary Don / Jack when visiting family in Jackson. Good bunch to hang out and listen to stories.*

*He had a good life with a good deal of suffering in last years, hated to see that, but it is over now. However, he took the health problems like everything else. EX: Was talking about too much rain one time, he said, "Gotta have rain to make things grow".*

“ Mac had a great sense of humor and he knew Aubrey was a big gardener. He would call Aubrey to see if he was ready for another load of manure , Mac ready to remove his ever growing pile in the pasture. Aubrey had a pile by the big garden. Once I answered the phone and Mac wanted to give Aubrey a message, "he wanted to give Aubrey some Shit."  
I didn't know about their Deal. He had the biggest warmest smile.  
Miss him.

When we past by and saw Mac sitting out on the patio chances were pretty good when we returned from where ever we were we would stop by for a visit.

“ Our cousin and, equally our Friend. A well-known, admired and respected farmer & stockman. Mac, and Sue, touched and positively impacted the lives of a lot of folks in Cape County, especially our Family. We will be forever grateful and thankful for the kindness and family history/traditions he personified and imparted to us. The saying "to live in the hearts of those left behind is not to die" - Mac, we all love you and, will miss You. As Kris says, "the good Lord doesn't give us a lot of people like Mac."

“ All the Loins of My youth are now passing, Mac was truly an outstanding man and dear family friend. He was there for my family when my Father broke his elbow coming back from the Missouri Supreme Court. I remember many a Saturday afternoon driving out to Millersville with my father to enjoy a visit, which of course meant a Beer or two. The fridge on the back porch was always filled and wide open. I last saw him at my fathers funeral, he had the same Smile on his face. That I knew him for. Truly a Great man and wonderful human being. He will be greatly missed.

“ *It takes a great man to love and raise another's children. But he did. And for over 50 years he was our dad. And he was a wonderful grandpa too. My Momma Sue and my Big Daddy Mac are together now. I take great comfort in knowing they are both watching over us! Until I see you again... know how thankful I am and how much I love you* ❤️
