“ No words can express how I feel for your passing Mimi. Through this whole process, I am starting to find some closure with our issues, because I know you wanted that so badly. I have and will always love you, and I will forever remember memories that we had together because they made us "Jessi and Jamie" and nothing can break that. Ever. Not even our crazy bs. You will forever be missed, and remain in my heart. REST EASY MIMI 💕💕
