“ *When you get a chance, think of Mike Rodgers when you read the lyrics and listen to Van Morrison's "Into the Mystic". I just ran across this, and it seems so appropriate for Mike. You can read and listen on YouTube. http://www.youtube.com/watch?v=gVAnIke_xUY*

“ We are going to miss Mike, even those of us who have not seen him in quite a while. My three uncles filled several niches in my life. Willie built my Pinewood Derby car.. Bill introduced me to hunting and pickled eggs. Mike was the youngest and hippest, and definitely had the best hair. He was always very fashionable, which struck me as a funny thing for a barge captain. He was the first man I remember in Cape to wear Sperry Topsider deck shoes. When I asked him about it, he said everywhere you walk on a riverboat is slippery, so his deck shoes were a fashion statement, but not just a fashion statement. Mike was a voracious reader. When I would visit Mike and Jo on New Madrid Street, I would look through the hundreds of books he had in the bedroom, and would read the things he had highlighted, things that were important to him. I just wish I could download all that knowledge from him to me. Mike was the cool uncle with the dirt bike and the black Norton Commando motorcycle. He took me on a ride one day, when the Commando was running, out Big Bend road north of Cape. That may be what started my curious love affair with eccentric motorcycles that carries on to this day. I have a black Triumph in the garage now, and will always think of Uncle Mike when I look at it and ride it. Mike also had a temper, which is a bad thing when you have an old British motorcycle. I remember the story when he picked up one of the kids from school, and the Norton would not re-start. He kicked and kicked and it would not start. He finally got it started, but only after he had flung a perfectly good motorcycle helmet across the parking lot as an offering to the gods of internal combustion. Jo and Mike gave me my first car, a ♦66 VW Microbus with a blown engine and "Scott City Bakery" still visible under the green re-paint. That started me down another rabbit hole of curious automotive relationships that persists to this day. I still peruse web sites, window-shopping for old VW busses, and I think of Mike. Mike was another branch on the family tree who helped build the country, and keep it running. Our family has made the shoes, cleaned the clothes, kept the phone lines humming, driven the trucks, prepared the documents, and Mike hauled the oil and coal and gravel that lit the lights and built the roads. We had our very own barge captain, and I think that♦s

pretty cool. A better known riverboat pilot remarked that while working on the river "in that brief, sharp schooling, I got personally and familiarly acquainted with about all the different types of human nature that are to be found in fiction, biography, or history." That pilot was Mark Twain, and I think he might have met Uncle Mike. Jo and family, so sorry for your loss, but thanks for sharing with us all these years. Uncle Mike, we are going to miss you, buddy.

“ Dear Jo ~ After all these many, many years I had no idea you and Mike were still together after such a bumpy start during high school days. Congratulations on your long marriage, many children and grandchildren, and, of course, my condolences to you and family on your loss. Thinking of you with fondness and sweet memories.

“ Mike, Jo & children, you were my neighbors for many years. Enjoyed knowing you all & having you for the great neighbors that you were. Jim & I hated it when you moved. Mike always was so friendly with his robust personality, eager to help if he could. Jo & kids, my sympathies are with you. God Bless you. Bessie Crites
