“ Herbie and I went to grammar school and Notre Dame together. He always had a joke and a smile, and a big, big heart. He was a great guy, and made the world a brighter place. My condolences to his family. Fly high my friend, and rest in peace.

“ *Herbie, you were one of a kind, a great friend and veteran, father and grandfather. I am sorry my moving away from created distances, and we never were able to get back together for a beer or two, or three as you sat “Why stop at three? There is always more.*

*Thank you for the friendship over years even if we were apart. But thank you for your service in the navy.*

“ Remembering my friend Herb Glueck from Brad McKee

*My friendship with Herb goes back almost 50 years. I've always considered him one of my best buddies! He always had a great sense of humor and was well liked by everyone who met him. When we first starting running around he attended Notre Dame but had a lot of friends at Central too. We were all glad when he decided to finish his last 2 years at Central with us. His brother used to be a DJ for a radio station on Broadway. On Sunday nights Herb and I would get a ride down to the radio station and his brother would let us use his new Cutlass to drive around town. A lot of fun for a couple of 16 year olds! He was always funny and had a knack for hilariously changing the words to popular songs that played on the radio. Herb always was popular and could make friends easily. He decided to join the Navy a couple years after graduation. I always respected him for that decision but we all missed him. When he left to report for basic training in Great Lakes, IL he asked me to drive him to Carbondale to catch the train to Chicago.*

*I remember us shaking hands when it was time for him to board the train. He turned around and saluted me. I saluted him back. I've always remembered that moment!*

*He was a good family man and friend and always wanted to help people who needed it.. I will truly miss my friend Herb Glueck! Rest in peace buddy! I salute you one last time!*
